

General File Index

How to Use This Index

This binder contains select and categorized newspaper articles clipped from Cortland County newspapers. This binder is divided into specifically tabbed sections as found on the next page: Table of Contents.

The purpose and process of this index binder is to:

1. Aid staff (and volunteers) on how to identify the “cut and paste” articles on white paper for filing in the appropriate section.

2. Mark the sheet in the upper right corner by the proper section name in this file.

3. File the sheets into the proper folder, or binder, or numbered volume binder (or a designated combination thereof).

***Important:* Proper section identification and filing will aid the researcher to locate the proper material from the proper location.**

Note: If you find an error in these pages, please write the correction over the error where it occurs.

Other material types in the Research Room are listed in the Card Catalog or in other specific binders. Please, ask the staff for assistance.

Created By: Betty Bonawitz

Updates By: Valerie Brown, currently in progress

This index book is being updated, in progress.

General File Index

Table of Contents By Section: Folder, Binder, and/or Volume

	Page
How To Use This Index	1
